📍 Belgrade, Serbia

## KEY TOOLS

**Test Management**
TestRail, Qase, Asana, Confluence, Notion, Coda

**Platforms & Builds**
Android Studio, Xcode, 3uTools, Jenkins, TeamCity

**Analytics & Stability**
Amplitude, Swrve, Adjust, Firebase, Sentry

**Traffic & API**
Charles Proxy, Postman, Git, HelpShift

## PROFILE

QA Engineer with 4+ years of experience in mobile and game testing. I look beyond bugs to what actually hurts the player experience: instability, irreproducible scenarios, gaps between specs and implementation. I own the full cycle — from requirements analysis and test plans to release regression, analytics, and post-launch monitoring.

## WORK EXPERIENCE

### Glam AI CURRENT
**Jul 2025 — Present**
*QA Specialist*

### Playrix
**Oct 2023 — May 2025**
*QA Specialist*

- Manual testing on **iOS, Android, Amazon, Huawei and Windows**; requirements analysis and spec decomposition
- Owned test cases, checklists, test plans and bug reports in **Asana**
- A/B testing and analytics event validation in **Amplitude and Swrve**
- Tested server-side and client-side game logic, **release regression**
- Traffic analysis and request interception via **Charles Proxy**; crash triage in **Sentry**
- Configured test servers via **Git** for environment setup and event configuration

### Playgendary
**Apr 2023 — Aug 2023**
*QA Specialist*

- Manual testing on **Android and iOS**, including raw Adjust data and Firebase configuration checks
- Consistently found **60+ defects per month**, meeting KPI targets
- Built, logged and verified builds in **Android Studio and Xcode**; bug reports in Asana
- Maintained test runs in **TestRail**, released projects to production and post-release monitoring

### DominiGames
**Mar 2022 — Apr 2023**
*QA Engineer*

- Manual functional and non-functional testing on **Android and iOS**
- Internal feature testing, **alpha/beta testing** of projects
- Reporting, test plans and test documentation in **Firebase Analytics**
- Build assembly in **Jenkins**
- Tracked user complaints via **Helpdesk**
- Trained interns and covered for the **Team Lead**

## PROFESSIONAL FOCUS

**Full release cycle** (requirements → regression → monitoring) · **Analytics & traffic** (Amplitude, Swrve, Charles Proxy)
