PROFILE

I test applications across Android, iOS, Huawei, Amazon and Windows. I assess stability, reproducibility and the impact of defects on user experience, with attention to UX/UI and application behavior and logic.

SKILLS & TOOLS

Requirements & documentation

Requirements analysis, decomposition, test cases, checklists and test plans.

[TestRail](#), [Qase](#), [Confluence](#), [Coda](#), [Notion](#)

Testing & releases

Functional, non-functional, alpha/beta and regression testing on Android, iOS, Huawei, Amazon and Windows.

[Android Studio](#), [Xcode](#), [3uTools](#), [Jenkins](#), [TeamCity](#)

Analytics & observability

Analytics-event and raw-data validation, configuration work and crash analysis.

[Amplitude](#), [Swrve](#), [Adjust](#), [Firebase](#), [Sentry](#)

Traffic & product work

Request interception, traffic validation, bug reporting, version control and user requests.

[Charles Proxy](#), [Postman](#), [Git](#), [Asana](#), [HelpShift](#)

EXPERIENCE

July 2025 - Present

Current

Glam AI

QA Specialist

October 2023 - May 2025

Playrix

QA Specialist

- Manual testing on iOS, Android, Amazon, Huawei and Windows
- Requirements analysis and decomposition to verify specification compliance
- Test cases, checklists, test plans and bug reports in Asana
- A/B testing and analytics-event validation in Amplitude and Swrve
- Server and client game-logic testing and release regression
- Traffic analysis, request interception and modification with Charles Proxy
- Crash and non-fatal error analysis in Sentry
- Git-based test-server changes for environment and event setup

April 2023 - August 2023

Playgendary

QA Specialist

- Manual testing on Android and iOS
- Analytics testing with Adjust raw data and Firebase configurations
- Identified 60+ defects per month as part of KPI
- Build installation, logging and verification in Android Studio and Xcode
- Bug reporting in Asana and version-control work with Git
- Test documentation and test-run updates in TestRail
- Production releases and subsequent status monitoring

March 2022 - April 2023

DominiGames

QA Engineer

- Manual functional and non-functional testing on Android and iOS
- Internal feature testing and alpha/beta project testing
- Firebase Analytics, reporting, test plans and test documentation
- Project builds in Jenkins
- User-complaint tracking through Helpdesk
- Intern training and Team Lead replacement

PROFESSIONAL FOCUS

Cross-platform testing

Android, iOS, Huawei, Amazon, Windows

Release cycle

Requirements, regression, monitoring

Analytics & traffic

Amplitude, Swrve, Charles Proxy
